

Unique "lift and shift" elevator allows switching from cutting to trimming in seconds.

Works with Fletcher Gemini and Gemini Pro Cutters/Trimmers as well as other rail-type cutters.

Quick and simple assembly features a lock-in-place fastening system that will not come loose over time.

Optional shelf kits offer up to three shelves for storage of substrates, flexible materials, tools or supplies.

THE ULTIMATE WORKBENCH

Works with the Gemini and Gemini Pro.
(Sold Separately)

A Durable Foundation For All Of Your Cutting Needs.

The Atlas workbench was designed to provide you with a strong, straight and stable foundation for all of your cutting and trimming needs.

Specifically designed and constructed to work with the Gemini and Gemini Pro cutter and trimmer, the Atlas clamp mechanism offers a unique lift and shift process to switch from cutting to trimming.

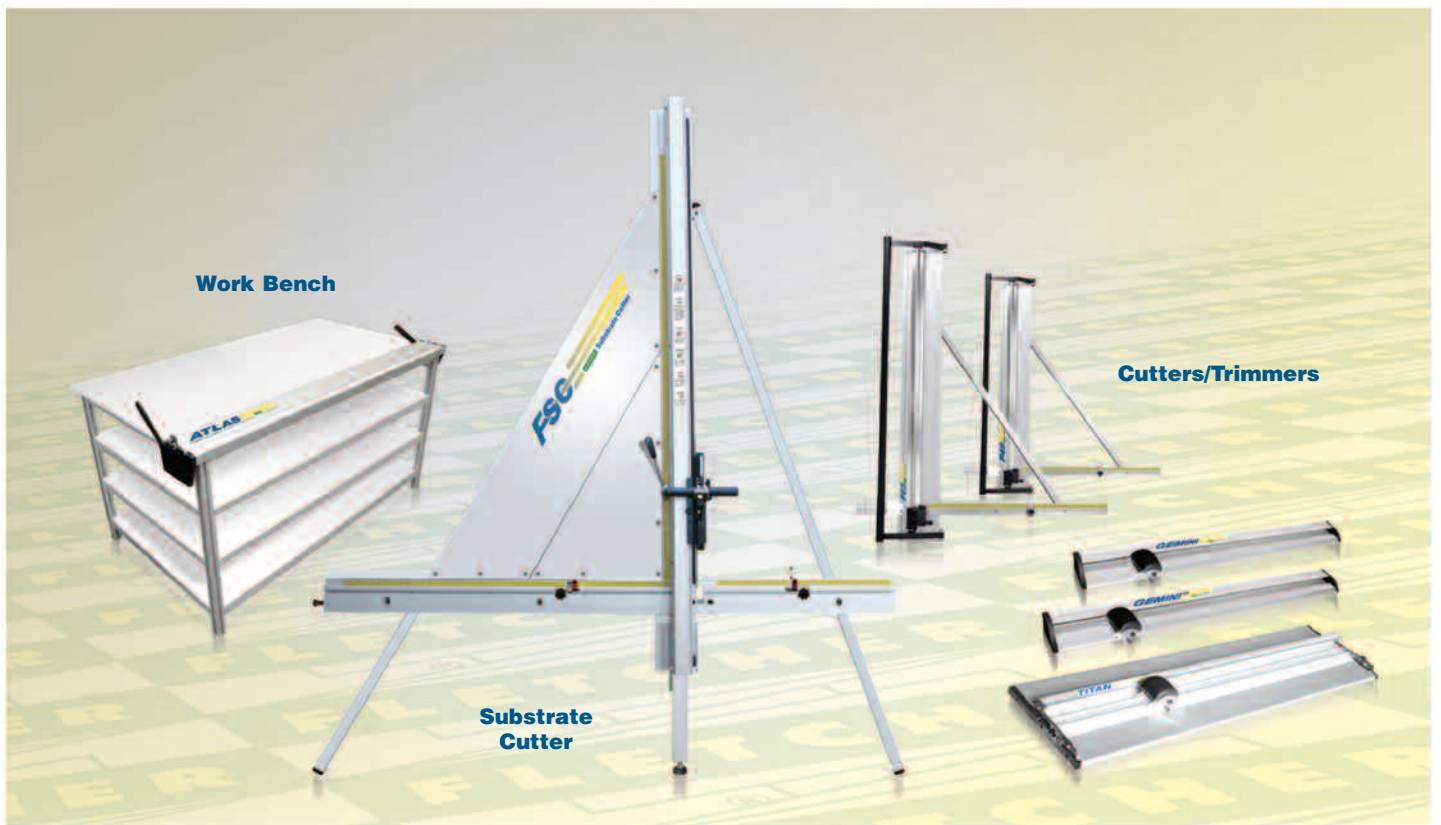

The Atlas accommodates both a blade track for cutting and a base for trimming on the same product.

Unlike wood workbenches, the Atlas won't warp, twist or bow. It provides an ideal cutting surface and serves as a perfect workbench when the Gemini and Gemini Pro are not in use.

The Atlas offers flexibility and versatility to any business. Add your own table top and install it with easy-to-use hardware included.

Atlas workbench sizes:
40", 60", 80", 100", 120"
