Mask & Spray (Grey)

This thin , highly conformable film has a grey anti-reflective surface making it highly visible on all substrates. The carefully formulated water based adhesive is compatible with most paints/inks. Suitable for use on both rigid and flexible substrates, including vinyl banners, painted substrates, acrylic sheets and taut liners.

510mm (20")		\$7.17	\$67.37	\$272.86
610mm (24")		\$7.17	\$67.37	\$272.86
1220mm (48")		\$14.34	\$134.74	\$545.71

**When using on vinyl banners wipe material with solver prepsol or banner wash and leave for 5 - 15 minutes to dry.*

Do not use other cleaning solvents like G.P. thinners, metho or turps as these solvents leave a residue which may attack the adhesive of the mask.
