The Holdon

Good news for techs everywhere - The days of scraping together bits of old timber to "fix" the cyc or backdrop are over. The fantastically strong and versatile Holdon™ Midi means instant fixing points wherever and whenever you want them without any tools! The clever patented design of the Holdon means the harder you pull on the Holdon, the more it grips, and they won't puncture or damage your fabric.

Mini	Pkt of 10	\$9.90
Midi	Pkt of 10	\$12.50
Maxi	Pkt of 10	\$22.90

The Holdon™ Midi:

- Reusable - Relocatable
- Apply with "one-hand operation"
- Takes thick fabrics - up to 5mm (greater on compressible fabrics)
- Tested to support over 100 kg
- Grips virtually any substrate firmly and instantly (including netting)
- Efficient holding on hemmed or non-hemmed fabrics
- Available in both black or white
- Keyhole 'screw head' slot for easy fixing
- Quick release mechanism
