

CUT AND TRIM ON THE SAME MACHINE

Rigid Materials

Cut And Trim On The Same Machine

Gemini's unique cutting head design allows you to switch from a blade cutter or a rotary trim wheel depending on the type of graphic materials being cut.

The Gemini cutter/trimmer is an affordable cutting solution that will provide accurate cuts over its length.

This combined cutting/trimming design...

The Gemini Pro is our most accurate cutting and trimming product; laser-aligned and straight over its length.

- Saves equipment investment by purchasing one machine for both cutting and trimming rather than two dedicated machines
- Saves time switching from one machine to another reducing processing time
- Maximizes the use of a large variety of media requirements

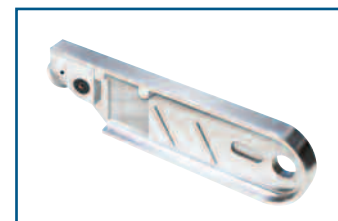

Sizes:

Gemini: 40", 60", 80", 100" and 120"

Gemini Pro: 40", 60", 80", 100" and 120"

Quick release magnetic blade magazine offers multiple blade depth adjustment to cut rigid materials up to 1/2" thick. This time-tested and proven open magazine design combined with Fletcher's state-of-the-art cutting head will not jam in any environment.

Innovative rotary wheel technology provides consistent trimming of flexible materials, and has been proven to trim for 1,000's of feet in a wide variety of fabric and vinyl products.
