
FLEX SIGN Lightbox

Warranty (Face): The printed flexface is covered by a 3 year manufacturers warranty. Only covers general wear and tear.

Warranty (electrical's): The internal electrical wiring is covered by a 6 month warranty. The lightbox is fitted with a plug lead classing it as an appliance. Removal of this lead voids all aspects of the electrical warranty.

Maximum size: Size limitations for the printed flexface without a weld is 2350mm Length is governed by roll length.

Payment: As lightboxes are all custom made to customers specifications, a 50% Deposit will be required. Remainder of payment needs to be paid before delivery.
This is the best way to maintain our aggressive pricing structure.

Artwork: Quality of artwork printed on flexface will be relevant to quality of artwork provided. Pricing is based on supply and print only. Any manipulation required of artwork to produce specific colours will have an extra charge based on time required.
** Please note that colours will look different lit to unlit due to light transmission.*

Time frame: Please allow 7 to 14 days for manufacture and deliver.

Delivery: Maximum size Bi-wize can deliver is 4m x 2m. For boxes exceeding this size: delivery will need to be organised by purchaser at their cost.

Pricing: Single sided lightbox with printed flexface, \$395 per sqm
Double sided lightbox with printed flexface, \$550 per sqm
Prices quoted are as of the 1/6/2011 and maybe subject to change without notice.
